LEGO Design Enrichment Program - Term 4

8-Week Curriculum Guide

Think. Play. Grow.

Beginner Level

Year culmination: Celebration building, skill integration, and creative confidence

Week 1: All-Time Favorites

Component	Description
Learning Goals	• Build personal favorite themes • Recreate best builds • Improve on past work
Activities	• Favorite theme exploration • Best build recreation • Improvement challenge
Superpower	Self-Reflection - Recognizing growth

Week 2: Fairy Tale Scenes

Component	Description
Learning Goals	• Build story settings • Create character builds • Bring stories to life
Activities	• Castle for Cinderella • Gingerbread house • Jack's beanstalk
Superpower	Story Building - Bringing tales alive

Week 3: Dinosaur World

Component	Description
Learning Goals	• Build various dinosaurs • Create prehistoric environments • Learn about dinosaur features

Component	Description
Activities	• T-Rex and Triceratops • Volcano landscape • Dinosaur museum display
Superpower	Prehistoric Imagination - Building ancient life

Week 4: Farm & Countryside

Component	Description
Learning Goals	• Build farm buildings • Create farm animals • Design rural scenes
Activities	• Barn and silo construction • Tractor and farm equipment • Animal pen building
Superpower	Rural Building - Creating countryside

Week 5: Secret Agent Base

Component	Description
Learning Goals	• Build spy headquarters • Create gadgets and vehicles • Design hidden features
Activities	• Secret base construction • Spy gadget building • Hidden compartment designs
Superpower	Secret Building - Hidden features

Week 6: Celebration Party

Component	Description
Learning Goals	• Build party scenes • Create decorations • Design festive buildings
Activities	• Party venue building • Birthday cake creation • Festive decoration design

Component	Description
Superpower	Celebration - Building joy

Week 7: Friendship Collaboration

Component	Description
Learning Goals	• Work with friends • Build together • Create group masterpiece
Activities	• Partner building challenges • Group mosaic creation • Collaborative mega-build
Superpower	Friendship - Building together

Week 8: Year-End Showcase

Component	Description
Learning Goals	• Display year's best work • Celebrate growth • Graduate to next level
Activities	• Best-of-year gallery • Growth reflection • Graduation ceremony
Superpower	Pride - Celebrating achievements

Intermediate Level

Year completion: Advanced integration, competition, and pathways forward

Week 1: Year in Review

Component	Description
Learning Goals	• Revisit favorite projects • Identify growth areas • Set future goals
Activities	• Portfolio review • Skill assessment • Goal setting workshop
Superpower	Growth Recognition - Seeing progress

Week 2: Challenge Gauntlet

Component	Description
Learning Goals	• Complete varied challenges • Demonstrate versatility • Perform under pressure
Activities	• Speed building • Mystery piece challenges • Theme challenges
Superpower	Versatile Excellence - Doing it all

Week 3: Futuristic Cities

Component	Description
Learning Goals	• Design cities of tomorrow • Incorporate technology • Build sustainable futures
Activities	• Flying car designs • Eco-friendly skyscrapers • Future city planning
Superpower	Future Vision - Imagining tomorrow

Week 4: Artistic Masterpieces

Component	Description
Learning Goals	• Recreate famous artworks • Build sculptures • Express artistic vision
Activities	• Famous painting recreation • Abstract sculpture • Personal art expression
Superpower	Artistic Expression - Building art

Week 5: Engineering Olympics

Component	Description
Learning Goals	• Compete in engineering challenges • Test designs • Optimize performance
Activities	• Speed race vehicles • Distance catapults • Strength competitions
Superpower	Engineering Competition - Testing designs

Week 6: Mentor Day

Component	Description
Learning Goals	• Teach younger students • Share knowledge • Build leadership
Activities	• Leading beginner sessions • Creating teaching demos • Mentorship practice
Superpower	Mentorship - Giving knowledge

Week 7: Dream Build Finale

Component	Description
Learning Goals	• Complete ambitious project • Execute full vision • Create masterpiece

Component	Description
Activities	• Large-scale project completion • Detail perfection • Final touches
Superpower	Vision Completion - Finishing dreams

Week 8: Grand Exhibition

Component	Description
Learning Goals	• Showcase all work • Present professionally • Celebrate year
Activities	• Exhibition setup • Professional presentations • Grand celebration
Superpower	Mastery Display - Showing excellence

Advanced Level

Mastery achievement: Portfolio completion, exhibition, and builder identity

Week 1: Builder's Philosophy

Component	Description
Learning Goals	• Define building style • Articulate design principles • Establish identity
Activities	• Style analysis • Philosophy documentation • Identity development
Superpower	Self-Knowledge - Understanding your style

Week 2: Competition Showcase

Component	Description
Learning Goals	• Compete at highest level • Execute competition strategy • Achieve peak performance
Activities	• Competition entry creation • Strategy execution • Peak performance
Superpower	Peak Performance - Best work

Week 3: Technical Documentation

Component	Description
Learning Goals	• Create professional instructions • Document complex builds • Share knowledge
Activities	• Instruction writing • Step-by-step documentation • Digital rendering
Superpower	Documentation - Professional recording

Week 4: Community Project

Component	Description
Learning Goals	• Build for community • Create donation pieces • Give back through building
Activities	• Community build project • Donation to schools/libraries • Public installation
Superpower	Community Service - Building for others

Week 5: Online Portfolio

Component	Description
Learning Goals	• Create digital presence • Share work online • Build following
Activities	• Website/social creation • Photography portfolio • Online community engagement
Superpower	Digital Presence - Online identity

Week 6: Workshop Leadership

Component	Description
Learning Goals	• Lead building workshops • Teach advanced techniques • Inspire others
Activities	• Workshop planning • Technique teaching • Leadership practice
Superpower	Leadership - Guiding others

Week 7: Legacy Project

Component	Description
Learning Goals	• Create lasting contribution • Build permanent installation • Leave mark

Component	Description
Activities	• Major build completion • Installation planning • Legacy documentation
Superpower	Legacy Building - Lasting impact

Week 8: Master Builder Celebration

Component	Description
Learning Goals	• Celebrate mastery • Recognize achievements • Launch builder career
Activities	• Master builder certification • Grand exhibition opening • Future pathway discussion
Superpower	Mastery - Achieving excellence
